AMENDMENT

Sir:

In response to the Office action of June 18, 2004, please amend the above-identified application as follows:

In the claims:

Of the pending claims, please amend claims 58, 61-63, 65-68 and 70-72. Further, please cancel claims 10-57, 59, 64 and 69. In addition, please add new claims 73-87. Following is a complete list of claims.

1-57. (cancelled).

58. (currently amended): A solid state optically addressable image generating and rendering display device that shows picture frames containing a light sensing region and a light emitting region subjected to an incident light projected by a projector for each picture frame displayed, in the presence of an applied electric field by causing carriers to flow from the light sensing region to the light emitting region, which constitutes a monolithic fabrication comprising of a photo-sensitive region and a photo-emissive region and which is configured to:

be addressed on the photo-sensitive region by a projector projecting light in presence of an applied electric field;

have the projected light cause a flow of charge carriers from the light affected photo-sensitive region to the photo-emissive region to cause a light emission;

exhibit stationary images as picture or picture frames wherein a frame is an integrated composition of the resultant light emissions from the device and a frame period represents time elapsed between the start of two consecutive frames.

59. (cancelled).
